

decofoil™

A fun and creative way to add a foil finish to any project!

decofoil™ **Peel n Stick** Toner Sheets are a great way to create custom foiled designs and embellishments. No need for a separate adhesive, just Peel n Stick!

1. Use scissors, punches, dies or electronic cutting machine to cut any design out of the **Peel n Stick** Toner Sheets.

2. Turn on laminator to 5mil setting and allow to heat up for 10-15 minutes. Cut a piece of foil slightly larger than the design. Place foil, color side facing up, on top of design. Place project with foil covered toner sheet design inside parchment paper. Insert into laminator using the crease as the lead edge.

3. Remove project from parchment paper. Peel foil transfer sheet away from **Peel n Stick** Toner Sheet.

4. Peel off liner on the back of the **Peel n Stick** Toner Sheet design to expose adhesive.

5. Place design onto project with adhesive side face down.
